

About The Hanen Centre

Founded in 1975, The Hanen Centre is a Canadian not-for-profit charitable organization with a global reach. Our mission is to provide parents, caregivers, early childhood educators and Speech-Language Pathologists/Therapists with the knowledge and training they need to help young children develop the best possible language, social and literacy skills. This includes young autistic children or children who may benefit from social communication support.

The Hanen Program[®] for Parents of Young Autistic Children or Children Who May Benefit from Social Communication Support

About the More Than Words[®] Program

More Than Words is a program that provides parents of young autistic children or children who may benefit from social communication support with practical strategies to support their child's communication.

This unique program was developed by experienced speech-language pathologists at The Hanen Centre. *More Than Words* is offered to parents around the world by Hanen Certified Speech-Language Pathologists/Therapists who have received specialized training from The Hanen Centre.

Why Are Parents Involved in the More Than Words[®] Program?

Parents are the most important people in their child's life, as well as their child's best teacher. As a parent, one of the greatest gifts you can give your child is the support to communicate and find more joy in their interactions with others. In the *More Than Words* Program, you learn practical and powerful strategies to support your child's communication and interaction during fun everyday routines and activities.

It is within these familiar and joyful everyday interactions that your child's communication skills will grow.

What Parents Learn in the More Than Words[®] Program

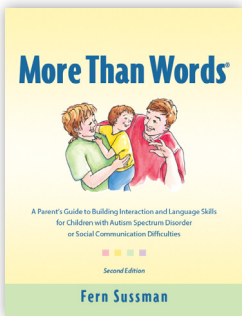

- How your child communicates right now and the next steps to take
- How your child learns best and how to take advantage of these preferences
- What motivates your child to communicate
- How to turn everyday activities into opportunities to support your child's communication
- How to help your child understand what you say
- How to join in on your child's favourite things to do and help them develop their communication skills while having fun together

The More Than Words® Program Offers:

- A consultation for you and your child with a Hanen Certified Speech-Language Pathologist/Therapist before the program begins.
- A series of informative and personal classes for small groups of parents
- Three individual consultations for you and your child with your Hanen Certified Speech-Language Pathologist/Therapist during which:
 - you discuss social communication goals and specific strategies for your child.
 - you are video recorded interacting with your child during everyday activities. This video is then reviewed and discussed with you so you can “see” what is helping and what else you can do to support your child’s interaction and communication.

Program Materials

The *More Than Words* Program is supported by the Hanen guidebook *More Than Words*. This beautifully illustrated book follows the program’s content in a practical and easy-to-understand format.

What Parents and Professionals Say About More Than Words®

“My son has made incredible strides due to your program. He has surprised a lot of people... What I really love about your course is that we are taught to work with our children... Your course is invaluable and a must-do for parents, relatives and friends. I am forever grateful.”

Debra, mother of 4-year-old, Anthony

“*More Than Words* is a ‘must-have’ reference for parents [of autistic children], and for professionals supporting parents. *More Than Words* respects the need for parents to be parents and for children to be children – and to learn as children learn, using developmentally appropriate practices. Parents and professionals will love this book and the Hanen approach.”

Barry M. Prizant, Ph.D., CCC-SLP
Director, Childhood Communication Services
Cranston, Rhode Island
Adjunct Professor, Brown University Center
for the Study of Human Development

The More Than Words® Program

Parents learn practical ways to help their child reach the following four goals:

1. More back-and-forth social interactions

Learn strategies to have more joyful back and forth interactions with your child in everyday activities.

3. Increased turn-taking in routines

Support your child’s participation in routines.

2. Enhanced communication skills

Help your child take the next social communication step based on their current abilities.

4. Improved understanding of language

Help your child make sense of their world.
